

SHOW-ME ECHO

DERM ECHO

COVERING SKIN HEALTH FOR PRIMARY CARE

Get expert dermatology support in a virtual learning network with University of Missouri specialists.

Learn about best practices and evidence-based treatment for:

- Early-stage identification of skin cancers
- Complex skin infections
- Common skin conditions like acne, rosacea and psoriasis
- Ulcers and unusual skin appearance

**INTERDISCIPLINARY PANEL
INCLUDES DERMATOLOGY,
BEHAVIORAL HEALTH AND
NURSING**

WHAT DOES DERM ECHO OFFER?

- Free CME for health care professionals*
- Collaboration, support and ongoing learning with experts and other physicians
- Patients get better care in home community

HOW DOES DERM ECHO WORK?

- Join an online video conference weekly or biweekly
- Discuss and share:
 - Four to five case presentations on dermatology topics
 - A brief educational presentation by an expert in dermatology

**See website for CME information*

WHY DERM ECHO?

Many Missourians have no meaningful access to expert dermatologic care. Late diagnosis of skin cancers and increased costs from misdiagnosis create an undue burden for patients.

Early access to expert care saves lives, reduces health care costs and improves access to care for thousands of Missourians.

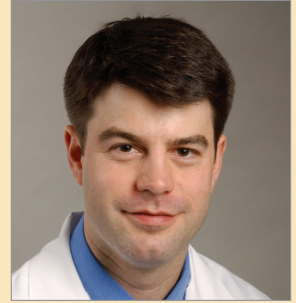

TOPICS FOR CASE-BASED LEARNING AND DISCUSSION INCLUDE:

- The skin exam
- Basic science of the skin
- Morphology
- Warts
- Acne and rosacea
- Psoriasis
- Adult fungal infections
- The red face
- Actinic keratosis and squamous cell carcinoma
- Basal cell carcinoma
- Evaluation of pigmented lesions
- Melanoma
- Bacterial skin infections
- Stasis dermatitis and leg ulcers
- Petechiae purpura and vasculitis
- The red leg
- Dermatitis
- Pediatric fungal infections
- Infestations/bites
- Drug reactions
- Urticaria
- Last, dark or red scaly rash
- Blisters
- Molluscum contagiosum
- Viral exanthems
