

SHOW-ME ECHO

HEALTHCARE ETHICS ECHO

JOIN EXPERT ETHICISTS IN RESOLVING ETHICAL CONFLICTS IN THE HEALTHCARE SETTING

Get expert healthcare ethics knowledge in a virtual learning network with University of Missouri and West Virginia Rural Emergency Trauma Institute, Inc. (RETI) specialists. Learn about ethical frameworks and principles that can guide ethical decision-making and assist with other ethics concerns, including how to:

- Identify ethical issues, problems and dilemmas.
- Evaluate approaches to ethical decision-making while considering basic ethical principles, theories and the cultural context in which decisions are made.
- Identify clinical options and the ethical issues that those options may present based upon stakeholder values and beliefs.

The Healthcare Ethics ECHO is a partnership between Rural Emergency Trauma Institute (RETI) in West Virginia, the Center for Health Ethics and Missouri Telehealth Network at the University of Missouri. This one-year pilot is funded by RETI.

BENEFITS OF PARTICIPATION

- No cost to participating sites or individuals.
- Free CME for health care professionals.
- Ability to share your own de-identified cases for case-based learning.
- Collaboration, support and ongoing learning with clinical ethicists and other health care providers.

WHY HEALTHCARE ETHICS?

Healthcare Ethics ECHO will enhance and improve patient-centered care and shared decision-making by fostering better understanding of the importance of values and preferences of patients and professional obligations of the health care team. It is intended to improve ethical awareness and knowledge for those dealing with clinically and ethically complex situations. The Healthcare Ethics ECHO is collaborative in nature and provides a learning venue suitable for ethics committee members and health care providers from all disciplines.

HOW DOES IT WORK?

- Join an online video conference once per month over the lunch hour.
- Participants will need access to internet, webcam and microphone.
- Discuss:
 - Clinical case presentations
 - A brief educational presentation by an expert in health care ethics
- Complete evaluation of ECHO programming.
