

FIRST ANNUAL LIVER WEEK

AUGUST
24-28
2020

VIRAL HEPATITIS

- The term "**hepatitis**" means **inflammation of the liver** and is most often caused by a virus.
- The most common types of viral hepatitis are Hepatitis A, Hepatitis B and Hepatitis C.
- An estimated **325 million people** worldwide **live with hepatitis B and/or C**, and for most, testing and treatment remains beyond reach.

WHAT IS ALF DOING?

FUNDING RESEARCH

The American Liver Foundation has granted over **\$1.2 Million dollars** to researchers for the continued study of viral hepatitis.
